Please check this box if you have a disability and believe that SAT I or ACT scores are not, therefore, an appropriate measure of your capacity for college-level work, and you wish to request a waiver of the requirement to submit these scores. Your voluntary response will be kept confidential, and will have no bearing on the University's admission decision. You must also submit documentation of the diagnosis of your disability from a qualified medical professional. The University of Massachusetts Lowell may require an alternative mode of assessment in lieu of SAT I or ACT scores.
