Total minimum credits: 132

See reverse side for additional information.

Refer to the *Schedule of Classes* booklet for General Education requirements. The University General Education requirements must be satisfied. A General Education course that fulfills the Diversity requirement must be taken.

<sup>(1)</sup> The listed co-requisite, 84.229 or 84.230, Organic Chemistry Lab, is not required for Chemical Engineering majors. 84.205 is the required lab.

<sup>(2)</sup> The listed co-requisite, 84.346, Physical Chemistry Lab, is not required for Chemical Engineering majors. 84.347 is the required lab.

<sup>(3)</sup> Students must take two of the following:

10.405 Design of Paper

10.501 Paper Industry Processes

10.419 or 10.420 Special Senior Project

The remainder of the option courses must be approved by the Paper Engineering Program Coordinator.

<sup>(4)</sup> Technical and Advanced Chemistry Elective must be chosen from an approved list. Consult with your advisor.

\*Calculus I A and I B instead of Calculus I will be required for students that do not pass the Calculus Readiness Test.

+ Honors Level courses may be taken instead.
