Nursing Articulation Agreement
with

Massasoit Community College
Department of Nursing Education

2006

The Department of Nursing and the School of Health and Environment are committed to encouraging Registered Nurses to return for further study leading to a baccalaureate degree with a major in nursing. Registered Nurses who earned an Associate Degree with a major in nursing from Massasoit Community College beginning with the Class of 2001 and subsequent classes and who meet the admission requirements of 2.7 overall GPA, 2.7 nursing GPA and 2.7 science GPA can apply for day school admission into the baccalaureate program in nursing at the University of Massachusetts Lowell as transfer students under this articulation agreement. Transfer credits designated in this agreement include 30 nursing credits and 36 credits of required and elective courses for a total of 66 credits.

The Faculty of the Department of Nursing, School of Health and Environment, University of Massachusetts Lowell have carefully reviewed the curriculum of the Nursing Program of Massasoit Community College. A thorough review of the nursing course content reveals that there is a match of subject matter and clinical experiences for 30 nursing credits.

Nursing Courses 30 credits

The faculty of the University have previously determined that the following courses (for a total of 36 credits) are equivalent to those offered at University of Massachusetts Lowell. Therefore, these courses are also accepted as part of the transfer agreement providing the student earns a C or better in each of these courses.

ENGL101	English Composition I	3 credits
ENGL102	English Composition II	3 credits
PSYC101	Introduction to Psychology	3 credits
PSYC105	Human Growth and Development	3 credits
SOCI104	Introduction to Sociology	3 credits
BIOL201	Anatomy and Physiology I with lab	4 credits
BIOL202	Anatomy and Physiology II with lab	4 credits
BIOL231	Microbiology with lab	4 credits
	Humanities or Free Electives	9 credits

The University of Massachusetts Lowell accepts a maximum of 66 credits for transfer from a Massachusetts Community College Associate Degree graduate. Students are also allowed to challenge additional (non nursing) credits through Departmental exams or through the CLEP process once admitted to the University of Massachusetts Lowell.

RN student practicum placements will be individualized. A photocopy of current nursing license, current CPR certification, and insurance must be submitted to the department and a record of continuous coverage for all documents must be provided according to expiration dates.

All students graduating with a Bachelor of Science degree with a major in nursing must present 120 earned credits and meet all the requirements of the Nursing Curriculum. The Registered Nurse student will need to fulfill all other curriculum requirements as stated on the attached Course of Study form.

This agreement will be considered void in the event that the participating program is no longer accredited by the National League for Nursing Accrediting Commission.

Date articulation agreement becomes effective: September 1, 2006
