

UNIVERSITY OF MASSACHUSETTS LOWELL

**Faculty Postions
Massachusetts Biomanufacturing Center**

The University of Massachusetts Lowell is conducting a search for several tenure track faculty to start in September 2006. Primary consideration will be given to candidates whose research expertise contributes to the Massachusetts Biomanufacturing Center at the University of Massachusetts Lowell. The newly created center helps Massachusetts biotech companies transition from R&D into manufacturing. Candidates with experience in the focus areas of process development, cell culture, bioseparations and applied biomanufacturing research are encouraged to apply. Candidates must have an earned doctoral degree and a strong background relevant to biological engineering, as well as a commitment to research and scholarly activities at both the undergraduate and graduate level. Positions are available at the assistant professor level, but more senior appointments will be considered for candidates with an outstanding record of achievement. Applicants are requested to send curriculum vitae, statement of teaching and research interests and a list of three references to:

**Chair, Faculty Search Committee
Massachusetts Biomanufacturing Center
C/O Department of Chemical Engineering
University of Massachusetts Lowell
One University Avenue
Lowell, MA 01854**

The review of applications will begin in mid-April, 2006 and will continue until positions are filled. Faculty will be academically placed into an appropriate home department but will have affiliation with the Massachusetts Biomanufacturing Center.

UMass Lowell is located approximately 25 miles northwest of Boston along the Merrimack River. In addition to leadership in the emerging areas of biomanufacturing and nanomanufacturing, the University has unique expertise in plastics and composites processing, polymer science, green chemistry, and health and environmental issues in manufacturing, along with a strong history of collaborative research with industry.
