

PROTECTING CONNECTICUT'S CHILDREN FROM ENVIRONMENTAL RISKS: PROBLEMS & SOLUTIONS

Date: Wednesday, May 24, 2006
Time: 8:00 a.m. – 3:30 p.m.
Location: CT State Capitol, 210 Capitol Avenue, Room 310, Hartford, CT (See below for directions)

SPONSORED BY:

US Environmental Protection Agency
University of Massachusetts, Lowell
Connecticut Dept of Environmental Protection

PURPOSE:

To provide nurses and other health professionals serving children, particularly those who are minority or low-income children, with the knowledge and skills to better identify, manage, and prevent environmental health risks as well as provide a forum for networking to address the challenges of pediatric environmental illness.

UPON COMPLETION OF THIS WORKSHOP, PARTICIPANTS WILL BE ABLE TO:

- Identify pathways and routes of exposure to environmental health hazards.
- Describe the relationship between individuals or populations and the community environment, including work environment.
- Identify the populations made vulnerable by personal characteristics to environmental health hazards.
- Understand the mechanisms and pathways of exposure to environmental health hazards.
- Describe prevention and control strategies for environmental hazards.
- Complete an environmental health history assessment, recognize potential environmental health hazards and sentinel illnesses, and make appropriate referrals for conditions with probable environmental etiology.
- Access and provide environmental health related information to individuals and communities, and to locate appropriate referral sources.
- Describe the role of advocacy, ethics, and risk communication in individual care and community intervention with respect to potential adverse effects of the environment on health.
- Understand the policy framework and major pieces of legislation and regulations related to environmental health.

CONFERENCE AGENDA

- 8:00 Registration & Continental Breakfast
- 8:30 Welcome and Introductions
*Commissioner Gina McCarthy,
State of Connecticut Dept. of Environmental Protection*
- 8:45 Introduction to Environmental Health
Dr. S. Chalupka
- 9:30 Break
- 9:45 Environmental Hazards in the Air, Water and Soil
Dr. S. Chalupka
- 10:30 Environmental Pollutants and Disease in American Children: New Pediatric Morbidity
Dr. J. Tickner
- 11:15 Safer Environments for Children: Homes, Child Care Settings & Schools
D. Turcotte, MS
- 12:00 Lunch
- 12:45 Environmental Health Resources:
- Tracy Babbidge, CT Dept. of Environmental Protection
- Jim Bryson, EPA Tribal Program/Environmental Network
- Ana Chambers, CT Dept of Public Health
- Kenny Foscue, EPA Indoor Air Quality
- Michelle Gottlieb, Physicians for Social Responsibility
- Terry Greene, National Library of Medicine
- Cindy Luppi, Clean Water Action
- Carol Westinghouse, INFORM, Inc.
- 1:30 Safer Environments for Children: Waste Sites, Workplaces & Waste Sites/Brownfields
D. Turcotte, MS
- 2:00 Break
- 2:15 Taking an Environmental Health History
Dr. S. Chalupka
- 2:45 Putting It All Together: Protecting Children in an Age of Uncertainty
Dr. J Tickner
- 3:30 Adjourn

Registration Deadline: May 15, 2006

This seminar is being offered at no charge. Registration is on a first come basis. Please register on our website <http://www.uml.edu/childrenshealth> or complete the form below and fax to Julie Villareal at 978-934-3026. The registration form must be completed by May 15. Any additional questions, please call Julie Villareal at 978-934-4772 or email at Julie_Villareal@uml.edu
Please only register if you can commit to attending, as seating is limited.

Nursing CEUs will be provided through University of Massachusetts Lowell.

Children Need Protection Where They Live, Learn, & Play

Each day, children may be exposed to a variety of environmental contaminants at home, school, and outdoors. Environmental exposures like air pollution, lead, mercury, and pesticides can have harmful effects on children's health and behavior, and the amount and timing of exposure can influence the magnitude of these effects. Children need our protection. Learning about children's environmental health is the first step to protecting them from environmental risks.

**Protecting Connecticut's Children From
Environmental Risks: Problems & Solutions --
Registration Form**

Name: _____

Do you need CEUs? Yes No

Only applicable if CEUs are needed -

Social Security Number or RN license number (Optional)

Professional Title:

[]RN []LPN []MD [] Health Educator [] Other,
please describe _____

Address:

(Please check one: Home or Business)

City: _____

State: _____ Zip: _____

Company/Affiliation:

Daytime Phone: () _____

Email Address: _____

Preferred means of contact: Email or Postal Mail

*If you have any special needs, please contact us as soon as possible
at (978) 934-4772 or by email at Julie_Villareal@uml.edu. .*

**Directions to the State Capitol
(210 Capitol Avenue, Hartford, CT)
and Legislative Office Building
(300 Capitol Avenue, Hartford, CT)**

Going East on I-84: Take the Capitol Ave. Exit 48B.
The Capitol is on the left and the Legislative Office
Building (LOB) on the right.

Going West on I-84: Take the Asylum Street Exit 48.
Turn right at the light, then immediately take the left
fork, which is Farmington Avenue. Turn left at the next
light onto Broad Street. After one light and the State
Armory, turn left into the Legislative Office Building
driveway and continue left to the LOB Garage. To
park at the Capitol (which has very limited space) -
from Broad Street, turn left at the second light onto
Capitol Avenue. Turn left onto Trinity Street at the third
light, and left onto the Capitol Grounds.

From I-91, Northbound and Southbound: Take
the Capitol Area Exit 29A. Follow the Whitehead
Highway; go halfway around the rotary onto Elm St.,
left onto Trinity St., and bear right onto Capitol Ave.

The Capitol and the Legislative Office Building (LOB)
are on the right.

Parking: Limited free parking is available in the
Legislative Office Building parking garage (weekdays
only) accessible from both Capitol Avenue and Broad
Street and on the north Capitol grounds off Trinity
Street. Workshop in Room 310 at the State Capitol
Building.

On-street metered parking and commercial parking lots
are also nearby.

Biographies of Speakers

Stephanie M. Chalupka, Ed.D, A.P.R.N., B.C., C.N.S. is a Professor of Nursing at the University of Massachusetts Lowell. Dr. Chalupka also holds an appointment as a Visiting Scientist in Occupational and Environmental Health at the Harvard School of Public Health. She is a certified community health clinical specialist who served as a municipal health department director for 14 years before becoming a nurse educator. Dr. Chalupka has extensive experience training health professionals in environmental health, particularly children's environmental health. She is the author of many peer-reviewed publications in environmental health nursing, including the Core Curriculum in Environmental Health for Nurses that was funded by the Agency for Toxic Substances and Disease Registry. Dr. Chalupka has taught the Core Curriculum in 26 states, and completed an extensive evaluation of its impact on professional practice and institutional policy. Dr. Chalupka serves as a member of the American Nurses Association Task Force to revise the *ANA Public Health Nursing Scope and Standards of Practice*. She has provided public health nursing consultation to several state health departments including the Vermont Department of Health in the Environmental Health Nurse Designee Program.

Dr. Joel Tickner is Assistant Professor in the Department of Community Health and Sustainability at the University of Massachusetts Lowell where he is also a Principal Investigator at the Lowell Center For Sustainable Production. His training is in toxics chemicals policy, epidemiology, risk assessment, and pollution prevention. He teaches and conducts trainings in a variety of environmental health topics including risk assessment, toxic substances policy, children's environmental health and pollution prevention. He has over 100 publications and conference presentations on the topics of pollution prevention, risk assessment, toxic chemicals policy, and uncertainty and the precautionary principle. He serves on the editorial boards of several journals, is a peer reviewer for journals and government documents and serves on the EPA's National Pollution Prevention and Toxics Advisory Committee.

David Turcotte, MS is a program manager at the University of Massachusetts Lowell's Center for Family, Work, and Community and has over 20 years experience in developing and organizing training and education programs for a variety of professionals. He directed a healthy homes demonstration program that trained home health care professionals and other staff on the detection and prevention of residential environmental health hazards. Mr. Turcotte conducts workshops on a variety of healthy homes issues and health hazards and serves as project evaluator for NIEHS funded initiative to address environmental and occupational hazards facing the Brazilian immigrant community. He is also a doctoral candidate in Work Environmental Policy/Pollution Prevention within the UMASS Lowell, Department of Work Environment with a strong research interest on the health impacts of the built environment.
