

Nutrition Minor

Students expressing an interest in the Nutrition Minor offered by the Department of Clinical Laboratory Sciences must first obtain the authorization of the Department and present no less than 21 semester hours in the minor field with at least 6 semester hours at the upper division course level. The minor requires the following courses:

35.101/102	Human Anatomy and Physiology I & II	6 semester hours
35.103/104	Human Anatomy and Physiology Lab I & II	2 semester hours
35.252	Physiological Chemistry II	3 semester hours
35.254	Physiological Chemistry II Lab	1 semester hour
35.206	Human Nutrition	3 semester hours

And 6 credits of upper division courses:

36.350	Human Biochemistry	3 semester hours
36.371	Advanced Human Nutrition	3 semester hours
36.372	Obesity and Weight Control	3 semester hours
36.406/506	Biochemistry of Lipids	3 semester hours
36.463/563	Vitamins and Minerals	3 semester hours
36.465	Lab Methods in Nutritional Assess	3 semester hours
36.472	Nutrition and Gene Expression	3 semester hours
36.481	Clinical Nutrition	3 semester hours
