External Job Description: At Wyeth, we have a vision of leading the way to a healthier world. We've committed ourselves to achieving this vision by making quality, integrity and excellence the hallmarks of our business. A Fortune 500 company and global leader in pharmaceuticals, consumer healthcare, and animal healthcare products, we know that our employees are who keep us on the cutting edge of innovative discoveries and superior customer service. To sustain and enhance our leadership position in the pharmaceutical industry, we continue to recruit, develop and motivate individuals whose skills, values, and work ethic will grow and improve our business.

Job Summary:

Learns and employs EHS technical theories to solve practical problems. Executes multiple, well defined EHS projects/assignments efficiently and documents the results expeditiously. Becomes familiar with site processes, equipment, and EHS programs and works cross-functionally to complete EHS project work.

Job Responsibilities:

Applies established EHS standards and methods to identify, evaluate and control safety, health and environmental hazards present in the work operations and environment.

Evaluates operations to determine compliance with Wyeth and governmental EHS standards and regulations.

Upon request, and with guidance and oversight from an experienced EHS professional, performs research and provides information on EHS matters.

Assists with developing and delivering EHS training and communications to persons internal to Wyeth.

Learns about EHS project management procedures and leadership function, and provides selected support to initiatives managed by senior EHS staff personnel.

Assists with EHS program tasks and activities, including: industrial hygiene, biosafety, ergonomics, process safety, environmental compliance, EHS inspections, fire protection, loss control, hazardous waste management and assistance with EHS committees.

Basic Qualifications:

BS or Masters degree in environmental sciences, safety, industrial hygiene or related scientific or management discipline.

cGMP, operations safety and environmental compliance may be required.

2 years of relevant work experience for those with BS degree. Masters degree in EHS relevant discipline may be considered equivalent to the 2 years of work experience.

Relocation is not available for this position.

Wyeth offers competitive compensation and benefits programs, including child-care subsidies, flex-time, business casual attire, educational assistance and professional development programs.

Wyeth is an Equal Opportunity Employer, M/F/D/V.

Search Firm Representatives:

Please Read Carefully.

Wyeth is not seeking assistance or accepting unsolicited resumes from search firms for this employment opportunity. Regardless of past practice, all resumes submitted by search firms to any employee at Wyeth via-email, the Internet or directly to hiring managers at Wyeth in any form without a valid written search agreement in place for that position will be deemed the sole property of Wyeth, and no fee will be paid in the event the candidate is hired by Wyeth as a result of the referral or through other means. **Note:** Any search agreement entered into with Wyeth prior to January 2004 is hereinafter void.

Search firms are essential to the recruitment and staffing efforts at Wyeth and we value the partnerships we have built with our preferred vendors. For this reason, Wyeth has established and regularly maintains a preferred vendor list. Please note that even preferred vendors need to have a written search agreement signed by the Vice President, Strategic Staffing at Wyeth in place for the specific position in order for a fee to be paid for any candidate referrals.
