MISSION STATEMENT: Our mission at the Centers for Learning and Academic Support Services (CLASS) is to enhance the educational experience by easing the transition into UMass Lowell. In addition, we strive to create a climate of collegiality and a sense of community and collaboration among students, faculty and staff in an environment that will foster and encourage creativity, growing independence and academic success.

STARFISH

Starfish Early Alert software enables faculty to alert students when students appear to be struggling academically and/or missing classes. Participating faculty complete five surveys throughout each semester, with the first three coming every two weeks, then every three weeks for the last two surveys.

EDUCATIONAL COMPUTING
