Walking and biking are some of the easiest, healthiest, and most inexpensive ways to get around the city. When the weather is nice, it is hard to resist taking in the Merrimack River and canals between campuses. On the next page there is a map showing how to get from one campus to another and other key sites such as our student center at University Crossings and Wannalancit Mills.

Transportation Services and Smart Trips have compiled an additional biking/walking map that connects our campuses. These maps can be picked up at a variety of locations throughout the campus. If you need a copy, feel free to stop by the Transportation Office in University Crossings. You can also print one yourself from
