## Using My Planner

You can plan your next semester or entire academic career on the new My Planner Page. You can select courses from either the Course Catalog or the My Requirements page.

Once you add a course to the My Planner page, it is shown under the Term you selected (as shown above). The Planner displays the following information for each course:

- Course
- Description
- Prereq ("yes" shows if the course is a Prerequisite)
- Units

You can also delete or move courses that are currently shown in a Term.

For more information on the My Planner page, watch the "Using the Student Planner" online tutorial.
