

## **Memorandum**

**To: Faculty and Librarians**

**From: Janet Burke, Executive Secretary, Faculty Senate**

**Date: June 3, 1996**

**Re: Minutes, Faculty Senate meeting June 3, 1996**

The Faculty Senate Meeting was called to order at 1:00pm on Monday, June 3, 1993 in Fisher Recital hall, Durgin hall. The following Senators were in attendance:

### **Agenda**

This special meeting of the Faculty Senate was called by petition of more than twenty members of the faculty to discuss the single issue presented in the following resolution:

### **Draft Resolution**

The U Mass Lowell Faculty Senate calls upon the administration to reconsider its current plans for relocating the computer science dept. to the second floor of Olsen Hall in order to find an alternative for moving the computer science dept. to North campus which, in addition to meeting the needs of the computer science dept,

- \* does not disproportionately or excessively reduce resources to ANY other department,
- \* recognizes the fundamental role of mathematics to the science and engineering enterprise by providing the mathematics department with adequate resources to carry out its instructional and scholarly activities,
- \* recognizes that the changing nature of mathematics instruction, with its use of technology and its emphasis on meeting the needs of individual students, will require space for laboratories and specially equipped classrooms,
- \* takes into account the current future needs of all affected departments, and
- \* recognizes the increasingly important role of technology to the entire University by providing adequate resources for current and future needs of ACC and telecommunications.
