

## WOMEN IN SCIENCE AND ENGINEERING (WISE)

**Friday, May 23, 2008**

The WISE program brings 400 seventh and eighth grade girls to UMass Lowell for a day. They attend hands-on workshops presented by professional women working in science, mathematics, health professions, and engineering. The steering committee is looking for women volunteers to assist the workshop presenters, direct the girls to their workshops starting with the registration in the morning, and generally act as role models for these girls. Volunteers are needed from 6:30 am to about 2:00 pm on Friday, May 23, 2008. Lunch and a really great t-shirt are provided.

Two possible brief training sessions to be held on May 21 and May 22 meeting in OH 150. Time to be announced - you will receive notice.

If you can volunteer, please complete the bottom half of this form and press submit button above to send electronically or print and send to:

Mary Hooker  
Clinical Laboratory and Nutritional Sciences  
Weed Hall, South Campus
