The Department of Nursing received a three-year $996,584 grant from the U.S. Department of Health and Human Services, Health Resources and Services Administration, Nursing Workforce Diversity, to recruit, retain and graduate future nurses who can effectively interact with patients across diverse cultures and ethnic backgrounds.

The project, Bring Diversity and Leadership to Nursing, will raise awareness of nursing as a career through workshops, clubs and demonstrations with elementary, middle and high school students in Lowell and Lawrence. Eligible students enrolled in the nursing program will receive support such as scholarships, stipends, technology equipment, tutoring, mentoring and leadership opportunities – all to help them graduate and work in local communities.

Details about job postings can be found at link below; please consider applying or sharing with your professional colleagues.
