<b>Learning Goal(s) Assessed:</b> Learning Goals: Global Awareness, Analytical Skills, and Ethics	
<b>Date of previous assessment(s) of these learning goals:</b> Spring 2015	
<b>Date of this Assessment:</b> Spring 2016	
<b>Assessment Method:</b> Multiple choice instrument developed by the Undergraduate Programs Committee (UPC)	
<b>Total Population Size from which Sample Taken:</b> N = 261 Sections = 13 Instructors: <ul style="list-style-type: none"> <li>• Salach</li> <li>• Jermain</li> <li>• Mehta</li> <li>• Vacarra</li> <li>• Yang</li> </ul>	<b>Sample Size:</b>  We had an n = 131 of 261 graduating seniors. This represents a response rate of 50.20% which is well above the 23.53% we had in the spring of 2015
<b>Names and Position of Assessors:</b> N/A	
<b>Measurement System Analysis:</b> The instrument used was developed by the UPC and based upon the 'Major Field Test' model used by the ETS. Students were instructed to not guess on any question.	
<b>Internal Performance Benchmark:</b> The UPC has determined a standard of acceptance (SAP) of 75%	
<b>Summary of Results:</b> The PDF files for all areas assessed are attached. The PDFs contain each question asked and the performance on each question. A brief summary is provided here:  <u><b>Global Awareness: (10 questions 33.33% of the instrument)</b></u> Of the students who answered the questions, <b>59.98%</b> answered correctly. This is a decrease from 2015 when <b>68.74%</b> answered correctly. Notes: <ul style="list-style-type: none"> <li>• <b>Still below the SAP of 75% set by the UPC</b></li> </ul> <u><b>Analytical Skills: (9 questions 30.00% of the instrument)</b></u> Of the students who answered the questions, <b>71.38%</b> answered correctly. This is an <b>improvement</b> over the <b>70.05%</b> answered correctly in the Spring of 2015. Notes: <ul style="list-style-type: none"> <li>• <b>Still below the SAP of 75% set by the UPC</b></li> </ul> <u><b>Ethical Awareness: (11 questions 36.67% of the instrument)</b></u> Of the students who answered the questions, <b>49.08%</b> answered correctly. This is a decrease from 2015 when <b>56.31%</b> answered correctly. Notes: <ul style="list-style-type: none"> <li>• <b>Still below the SAP of 75% set by the UPC</b></li> <li>• <b>We will share the results of this assessment with the faculty who are currently teaching Business Ethics for the MSB. There may be a disconnect between what our students are learning and the questions we are asking.</b></li> </ul>	
<b>Date of Review of Results by Program or Major:</b> The UPC of the Manning School of Business will review the results in September of 2016. Findings to be added.	

<b>Scheduled next assessment of this/these Learning Objective(s): Spring 2017</b> see schedule below
<b>Date of review by Responsible Associate Dean(s):</b> June 22, 2016
<b>Brief Self-Assessment of Process Used</b> <b>Strengths:</b> The self-designed major field test model is widely accepted in higher education as a valid assessment instrument. <b>Opportunities for Improvement:</b> We need to do a better job of coordinating this activity. In the perfect world our sample size is 100% of the all the graduating seniors. That being said we should target at least a 75% sample of the seniors.
<b><u>AOL &amp; UPC RECOMMENDATIONS:</u></b> Findings will be forthcoming
