### About Cádiz

Cádiz is a beautiful port city located in southwestern Spain. It was founded in approximately 1,100 B.C. and is the oldest city in Europe. Surrounded by the sea on three sides, Cádiz is only accessible by the "Puerta de Tierra," a strip of land that serves as the only entrance into the city. The rich history of Cádiz is evident everywhere with its grand monuments, cathedrals and palaces. Cádiz is also known for its charm, great seafood, relaxed atmosphere, clean air and warm southern Spanish hospitality. Citizens of Cádiz, called gaditanos, are noted for their humor, and the city's beaches are considered some of the most beautiful in all of Spain. Learn about the music, culture and dialect of Andalucía in this beautiful seaside city!
