

On-Campus Blackboard

Clickers: Student Registration with TurningPoint Cloud

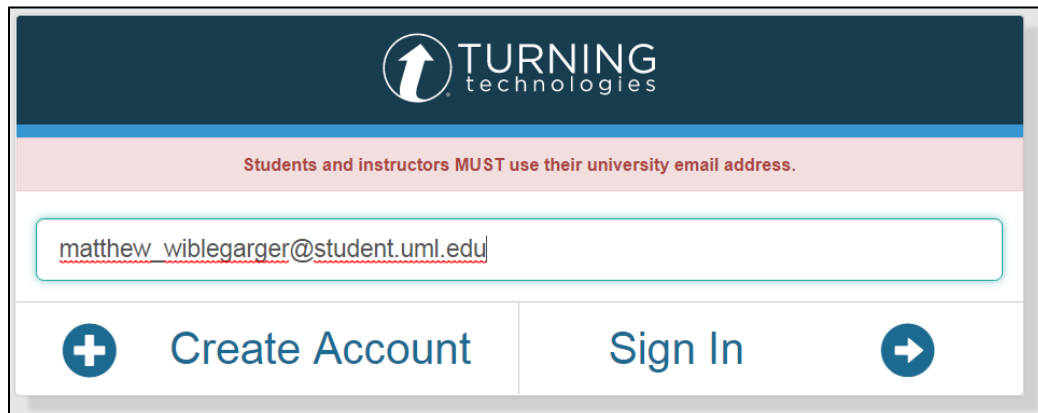

If your instructor requires clickers, find out if you are required to purchase a subscription. You may not get credit for participation or graded questions without purchasing a subscription. All clicker activity is tracked by registering your Turning Account through each Blackboard course that requires clickers.

To register your clicker and account for a course, follow these steps:

1. Log into Blackboard and access the course where you will be using the clicker and click on the Turning Account Registration link your instructor provides.

2. Either Create a new account or log into your existing account. Be sure to use your @studnet.uml.edu email address.

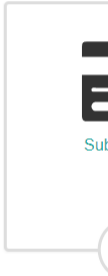

A screenshot of the Turning Technologies registration page. At the top is the Turning Technologies logo. Below it is a red banner with the text 'Students and instructors MUST use their university email address.' A text input field contains the email address 'matthew_wiblegarger@student.uml.edu'. At the bottom are two buttons: 'Create Account' with a plus icon and 'Sign In' with a right arrow icon.

3. After you have an account and have logged in you will see a dashboard that displays the status of your Subscription, Device, and Learning Management System link. You may be required to purchase a clicker and subscription so check with your instructor about what is required for your course. All users should have a green check mark for Learning Management System regardless of course requirements. Make sure you have a green check for all required areas!
