TRIP DESCRIPTION: Mt. Moosilauke has been climbed by locals for nearly 300 years. The mountain has a long history of use as a hiking destination, source of timber, and winter playground. The summit is bare and has wonderful 360 degree views of the rest of the White Mountains, Vermont, and even into the Adirondacks on a good day. The weather during the spring can vary widely and include full winter conditions. It may feel like spring but prepare for winter on the mountain!
