Email:

Address:

Name of Program/Organization/Group:

Address (if different):

Website:

Briefly describe the Program/Organization/Group:

List the community social psychology competencies that the student hopes to develop:

Note: The student is required to identify competencies in at least two skill areas specified by the psychology master's program as central to the role of a community-social psychologist (i.e., community assessment & program evaluation, program planning & development, resource development, advocacy & public policy, and community organizing & coalition building). The student should also specify goals related to the skills of participant conceptualizer, interpersonal & group process, and general professional development.

Briefly list the potential practicum project(s):

Additional Comments can be included on separate pages.

We have both reviewed this document and agree to work toward further developing this practicum placement:
