UMass Lowell / YouGov Survey of New Hampshire Likely Voters

Survey design and analysis by John Cluverius, Co-Director, and Rodrigo Castro-Cornejo,
Associate Director, University of Massachusetts Lowell Center for Public Opinion.

Field Dates: October 2 – October 19, 2026

N=600 New Hampshire Likely Voters
Adjusted Margin of Error: +/-5 percentage points

Margins of error have been adjusted to include
design effects resulting from weighting and survey design features

Methodology in Brief

YouGov interviewed 695 respondents who were then matched down to a sample of 600 to produce the final dataset. The respondents were matched to a sampling frame on gender, age, race, and education. The sampling frame was constructed by stratified sampling from the 2024 Current Population Survey (CPS) Voting and Registration supplements, and the 2024 AP VoteCast exit poll, including demographics and 2024 presidential vote. All data were weighted to the CPS-VRS person weights on the public use file, with Hur & Achen reweighting adjustments to account for missing data within the voter registration and turnout fields. The matched cases were then iteratively proportionally fitted (IPF) on 2024 presidential vote choice. Additionally, an IPF was run on a three-way stratification of gender, age (4 categories), and education (4 categories), and these demographics' associated marginals, to produce the registered voter weight. Finally, weighted results were then compared to expected proportions for likely voter profiles given a battery of three items in order to slightly increase weights for likely voters than their unlikely voter counterparts. These included: 1) how closely they follow news about candidates running for the Senate; 2) how often they say that they vote when there is a midterm election; and 3) how likely they are to vote in the election in November. Where the data were lower than expected, they were upweighted. These were then trimmed and centered about 1 to produce the final weight.

UMass Lowell is a public institution and releases surveys as a source of public information. We offer a complete methodology report in adherence with standards of the AAPOR Transparency Initiative, as well an extensive set of crosstabs. Our goal is complete transparency in the reporting of our findings. If there is something you do not see here, but wish you did, please contact Co-Director, Dr. John Cluverius (john_cluverius@uml.edu; [@JohnCluverius](#)).

--- indicates 0 respondents in the crosstab, 0% indicates less than .5%, rounded to 0

28. The American Israel Public Affairs Committee, called AIPAC, is a pro-Israel lobbying group that endorses both Democratic and Republican candidates in the United States. AIPAC and affiliated Super PACs spent over \$100 million in their election efforts in 2024. Some argue that an interest group with the purpose of strengthening U.S. support for a single foreign government puts U.S. interests at risk. Others argue that lobbying groups are a healthy part of the American system, and that the U.S. and Israel share many interests. Would an AIPAC endorsement make you more likely or less likely to support a candidate for Congress?
