UMass Lowell/7News Poll of Massachusetts Voters

Survey produced by Professor Joshua J. Dyck, Ph.D.

Field Dates: 10/21/14-10/25/14

N=1001 Massachusetts Registered Voters (RVs)

N=601 Likely Voters (LVs)

Adjusted Margin of Error: +/- 3.6% for RVs; +/-4.5 for LVs

Margins of error have been adjusted to include for design effects resulting from weighting and survey design features.

Note: not all percentages will sum to 100 due to rounding error

Methodology in Brief

Data collection by live interviewers from Abt SRBI, Inc. This is a probability sample of 1001 Massachusetts Registered Voters (RVs) collected using an overlapping dual-frame random digit dial design with a 65% landline/35% cell phone split. Using the model detailed on page 2, 601 of these RVs were identified as Likely Voters (LVs).

The data were first weighted to address the imbalance that occurs because some respondents have a greater probability of being included in the frame if they have multiple landlines or both a landline and a cellular number. To ensure a representative sample, we collected demographic data on all respondents who were residents of New Hampshire and at least 18 years of age (including non-registered voters) so that our overall sample can be weighted to data on age by gender, education, and race from the 2012 American Community Survey for Massachusetts. The youngest male/female method was used for in-household selection.

UMass Lowell is a public institution and releases surveys as a source of public information. We report our questionnaire in our topline document which includes likely voter model questions and wording. We offer a complete methodology report, as well an extensive set of crosstabs. Our goal is complete transparency in the reporting of our findings. If there is something in the release you do not see, please contact Professor Joshua J. Dyck (joshua_dyck@uml.edu; [@drjjdyck](https://twitter.com/drjjdyck)).

Likely Voter Model (Asked of all RVs)

Q3 As you know, a general election will be held across the country in November which includes races for Governor and U.S. Senator in Massachusetts. How closely are you following news about candidates running for office in Massachusetts— very closely, somewhat closely, just a bit, or haven't you really been following it much at all?

29% Very closely
33 Somewhat closely
21 Just a bit
17 Haven't really been following it much at all
1 (VOL) Don't know/no answer

Q4 How often would you say that you vote when there's an election for Governor – always, almost always, just sometimes, hardly ever, or never? If you have just registered to vote for the first time, please tell me.

64% Always
15 Almost always
8 Just sometimes
3 Hardly ever
5 Never
4 Just registered to vote for first time
0 (VOL) Don't know/no answer

Q5 Many people don't vote in elections unless the race for President is on the ballot. At this point, would you say you'll definitely NOT vote in the upcoming election for Governor of Massachusetts and U.S. Senator, PROBABLY NOT vote, may or may not vote depending upon how you feel at the time, PROBABLY vote, or DEFINITELY vote in the upcoming election? If you have already voted or early voted, just tell me.

5% Definitely not vote
5 Probably not vote
6 May or may not vote
13 Probably vote
68 Definitely vote
2 Already voted
1 (VOL) Don't know/No Answer

Likely voters are defined as those who are following news of the election “very closely,” or “somewhat closely” (Q3=1,2), “always” or “almost always” vote when there's an election (Q4=1,2), and say that they “definitely will vote,” or have “already voted” in the election (Q5=5,6). Voters who report that they “just registered” (Q4=6) were classified as likely voters if they are following news of the election “very closely” (Q3=1) and say that they “definitely will vote,” or have “already voted” in the election (Q5=5,6).

Among partisans (using leaned party ID), **51% of Democrats, 57% of Republicans and 51% of Independents** are classified as “Likely Voters.”

Q6 If the election for GOVERNOR of MASSACHUSETTS was being held today would you vote for [RANDOMIZE: Charlie Baker, the Republican, Martha Coakley, the Democrat,] [RANDOMIZE: Evan Falchuk, an Independent, Jeff McCormick, an Independent, OR Scott Lively, an independent]?

Q6a As of TODAY, do you LEAN more toward: (asked to those who answered 8/9 in Q6)

Q6b Did you vote for ? (if the respondent reports already voting, Q5=6)

LV	RV	RV AUG

As you know, Massachusetts voters will decide on 4 ballot measures this Fall.

Q8 Question 1 proposes a law that would change the gas tax in Massachusetts. If the election was being held today, how would you vote, YES to eliminate the requirement that the state’s gas tax be adjusted annually based on the Consumer Price Index, or NO to make no changes to the existing gas tax law?

8a. As of TODAY, do you LEAN more toward: YES to eliminate the requirement that the state’s gas tax be adjusted annually based on the Consumer Price Index, or NO to make no changes to the existing gas tax law?

IF NEEDED: The Consumer Price Index measures the rate of inflation.

LVs	RVs	
40%	39%	Yes, eliminate the requirement
54	52	No, make no changes to the existing gas tax law
6	9	(VOL) Don’t know/unsure/undecided/Refused

(crosstabs are of LVs)
