ADVANCED PRACTICE EXPERIENCE

CAREWELL URGENT CARE CENTERS, Tewksbury, MA

Nurse Practitioner 08/19-present:

Serves as an independent practitioner in the urgent care setting. Interprets radiologic studies and lab values, quickly evaluates and treats non-urgent through emergent cases. Collaborates with paraprofessional personnel to manage the care of 40-60 patients per shift. Average volume per hour is 3.5 with a >90% patient satisfaction score.

ELLIOT HOSPITAL OCCUPATIONAL HEALTH, Manchester, NH

Clinical Lead 2/16-06/18:

Manage clinical operations and serve as lead clinician for Occupational Health and Employee Health Departments of a 296 bed hospital and trauma center. Serve the Elliot employees as well as outside companies and municipalities. Goal for the department is to meet OSHA standards for a comprehensive health and safety program that maintains and enhances health, improves safety, and increases productivity for our clients. Functions include, but are not limited to, pre-employment physicals and screenings, Fire and Law Enforcement pre-employment and annual examinations, DOT examinations, workman's compensation evaluation and management. Eight hours per week are spent on site at the at the General Electric manufacturing plant. Services there include working with the safety office on prevention and early reporting of occupational health injuries, in-house management of injuries, employee wellness programs, and physical exams.

CONVENIENTMD URGENT CARE CENTERS, Windham, NH

Nurse Practitioner 12/15-10/16:

Serves as a practitioner in the urgent care setting. Interprets radiologic studies and lab values, quickly evaluates and treats non-urgent through emergent cases. Collaborates with physicians and advanced practitioners to manage the care of 90+ patients per shift. Average volume per hour is 2.5 with a >90% patient satisfaction score.

CVS MINUTE CLINIC, New Hampshire

Clinic Practice Manager 2/12-12/15:

Supervise and manage operations for 6 Retail Health Clinics, with experience in managing up to 16 clinics over the 4 years in this role. Responsible for 13-42 Nurse Practitioners, as well as collaboration with the State Practice Manager and supervising physicians. This role includes an average of 20 hrs per week in the retail health care setting, focused on E&M visits as well as chronic illness monitoring for patients aged 18 months and older. Work closely with senior leadership on development of the company to include marketing, operations, clinical quality and professional development. Also continue daily administrative duties that consist of evaluating and coaching providers, payroll, scheduling, customer concerns, chart reviews, incident reporting, and budget analysis.

COMBINED JOINT SPECIAL OPERATIONS TASK FORCE – ARABIAN PENINSULA, Joint Base Balad, Iraq

Nurse Practitioner and Medical Operations Officer 6/11-11/11:

Served as a Nurse Practitioner as well as a Medical Operations Officer during a 6 month combat tour in Iraq. In addition to daily sick call and on-site trauma, reported to the joint forces command on medical casualties for 2100 Special Operations personnel throughout the country. Worked alongside Special Forces soldiers providing medical support to indigenous persons in an austere environment throughout Northern Iraq.

DUKE UNIVERSITY MEDICAL CENTER – INTERVENTIONAL RADIOLOGY, Durham, NC

Nurse Practitioner 1/11-6/11:

Worked closely with the specialty physician team to diagnose and treat a wide background of patients. Responsible for in-patient as well as out-patient care, and ages infant-geriatric. Independently ordered laboratory studies and diagnostic procedures, as well as explained necessity, preparation, nature and anticipated effects of scheduled diagnostic and therapeutic procedures to patients and their family members.
