Outlook 2003 Secure Connection

To connect properly to the Exchange 2010 e-mail server, Outlook 2003 clients must be configured for a secure connection to the Exchange server.

To enable a secure connection:
1. Open Outlook
2. On the menu, go to Tools > E-mail Accounts
3. Select View or change existing e-mail accounts
4. Click Next
5. On the E-mail Accounts screen, click Change…
6. On the Exchange Server Settings screen, click More Settings...

7. Click on the Security tab and check Encrypt data between Microsoft Office Outlook and Microsoft Exchange Server

8. Click OK

9. Close the E-mail Accounts window

If you have questions, please contact the Help Desk or 978-934-4357 (ext. 4357/HELP on campus) or helpdesk@uml.edu.
